SKILLS

- **Product & Analytics:** User Research, A/B Testing, PRDs, Prototyping (Figma), Data Analysis, SQL, Power BI, Excel
- **Execution & Strategy:** Roadmapping, GTM, Prioritization, Process Automation, Competitive Research, Stakeholder Management
- **AI & Automation:** LLMs, RAG, AI Agents, Prompt Engineering, OpenAI APIs, n8n / Make
- **Technical:** Python, JavaScript, HTML, CSS, MySQL, Supabase, REST APIs, Git / GitHub
- **Certifications:** Breaking into Product Management; GenAI Lead (Google); Forward Learner (McKinsey)

EXPERIENCE

BUSY InfoTech (An IndiaMart company)

January 2026 – Present

Associate Product Manager

Delhi, India

- Owned a 0→1 product end-to-end on a platform serving **4.6 lakh+ active users**; mapped the full user flow, identified friction points, and shipped iterative releases with engineering and senior stakeholders to accelerate time-to-market.
- Identified critical inventory management gaps (stock-outs, manual reorder cycles, poor demand visibility) and proposed an **AI-powered inventory forecasting feature** that automated replenishment alerts, reducing manual inventory work by **50%**.
- Walked through the full user flow, identified key **user drop-off points**, and built an **AI-powered smart reconciliation feature** blended with connected banking, enabling users to download and reconcile transactions directly through BUSY; increased **user retention and reduced drop-offs by 40%**.
- Ran direct discovery with **162 users** (in-app and off-platform feedback) to validate inventory and payment pain points, prioritized the right fixes, and closed the loop on surfaced issues.
- Identified a payment-flow gap and initiated Phase-1 integration with ICICI, Axis, and HDFC, enabling **in-product payments** that cut payment friction time by **50%**. Added a contextual **CA suggestion feature** that identifies moments when users may need a Chartered Accountant and connects them with BUSY-associated CAs, improving user support and engagement.
- Co-built "Busy Magic," an AI-powered platform initiative with corporate-banking integrations, driving **40% higher adoption** and reducing user friction by **30%**.

MantraCare

June 2025 – January 2026

Associate Product Manager

Delhi, India

- Drove product strategy for a **B2C healthcare mobile app** used by **500+ users globally**; designed and improved a **personalised provider recommendation system** that matched users with best-fit therapists and doctors based on health needs, lifting **user engagement and retention by 25%**.
- Built an **AI agent** to automate a manual contact-extraction workflow for BD teams, removing repetitive effort and improving operational efficiency by **~30%**.
- Used analytics and feedback tools to isolate top **drop-off and friction points** in the consumer journey; partnered with design, tech, and QA to ship MVPs addressing core user pain points.
- Drove the product roadmap through market and competitor research, delivering PRDs and **GTM strategy** aligned with business outcomes. Achieved **20% lift in user interest** and faster release cycles.

PROJECTS

PM-Mem — AI Chat Memory for Product Managers

May 2026

- Built PM-Mem to solve a real PM pain point: research, chats, and decisions across AI tools get lost when sessions close. Captures and preserves conversations across ChatGPT, Claude, Perplexity, and Gemini in one place, with explicit user consent. Privacy-first by design.
- Lets users export any chat as Markdown to seed a fresh conversation or auto-summarize it, keeping long research threads alive across context windows.

Rakthmanch — Real-Time Blood Availability Platform

February 2024

- Built a consumer web platform surfacing real-time blood-type availability within 50 km, with user authentication, interactive posts, and live database updates connecting donors and recipients.
- Ran **A/B testing** on a redesigned UI in Figma, improving task completion by **15%** and reducing user-reported bugs by **22%**. Built with HTML, CSS, JavaScript, MySQL.

EDUCATION

Vellore Institute of Technology, Bhopal — BTech in CSE, GPA 8.02/10

October 2021 – June 2025

ACHIEVEMENTS

- Gold Medalist, 16th National Science Olympiad (NSO).
- Rank 648, 7th International Mathematics Olympiad (IMO).
- Core Member, National Service Scheme (NSS) – VIT Bhopal.
