## EXPERIENCE

### BUSY InfoTech (An IndiaMart company)

January 2026 – Present

Associate Product Manager

Delhi, India

- Owned end-to-end build of BUSY's **in-product payment gateway**. Mapped user flow, identified risk and drop-off points through user research (162 users), and defined HLD with engineering for a secure, scalable **checkout experience**.
- Led Phase-1 **connected-banking integration with ICICI, Axis, and HDFC**. Defined API contracts and LLD with banking partners, enabling in-app payments and cutting payment friction by **50%**.
- Drove **YPay payment-collection integration** — built **checkout page and payment-link flow** enabling sellers to send invoices, collect payments, and receive **settlement in their bank accounts**. Finalized commercials and end-to-end user flow, reducing invoice settlement friction.
- Led **Easy Ecomm integration for merchant billing** — enabled businesses on **Shopify, Amazon, and Flipkart** to settle bills through BUSY. Defined scope and user flows; expanded to **Meesho**.
- Integrated **Signzy APIs** for auto-fetching business details via **GSTIN and PAN**, eliminating manual data entry and accelerating **merchant onboarding**.
- Co-built "Busy Magic," an AI-powered platform initiative, driving **40% higher adoption** and **30% reduction in user friction** across payment and onboarding journeys.

### MantraCare

June 2025 – January 2026

Associate Product Manager

Delhi, India

- Built product-health dashboards using Mixpanel and Power BI to track engagement, retention, and funnel metrics. Shipped targeted fixes that lifted **DAU by 40%** and **MAU by 20%**.
- Managed **Google Ads and Meta Ads** campaigns; configured **Google Tag Manager** for **conversion tracking and attribution**. Analyzed acquisition funnels to optimize ad spend and reduce drop-offs.
- Led **Tata 1mg 3P integration** for blood-test bookings — defined cross-platform user flow enabling users to book tests directly via Tata 1mg.
- Built **MantraAssist CRM module** to match users with insurance-covered treatments and partner companies, growing **insurance-linked user segment by 20%**.
- Built an AI agent to automate contact extraction for BD teams, improving operational efficiency by **~30%**.
- Defined product strategy and **GTM** with marketing and sales, sharpening product-market fit. **20% lift in user interest**; used by **500+ users** globally.

## PROJECTS

### PM-Mem: AI Chat Memory for Product Managers

May 2026

- Built PM-Mem to solve PM context-loss across ChatGPT, Claude, Perplexity, and Gemini sessions. Captures conversations with user consent; privacy-first. Export as Markdown or auto-summarize to keep research threads alive.

### Rakthmanch: Real-Time Blood Availability Platform

February 2024

- Built a web platform surfacing real-time blood-type availability within 50 km. Ran A/B testing on redesigned UI, improving task completion by **15%** and reducing user-reported bugs by **22%**.

## EDUCATION

Vellore Institute of Technology, Bhopal | BTech in CSE, GPA 8.02/10

October 2021 – June 2025

## ACHIEVEMENTS

- **Gold Medalist**, 16th National Science Olympiad (NSO).
- **Rank 648**, 7th International Mathematics Olympiad (IMO).
- Core Member, National Service Scheme (NSS), VIT Bhopal.
